

6kVA Subaru Petrol Generator (RGX7100)

The 6kVA Subaru petrol generator comes standard with a 22L long range fuel tank, battery charging, heavy duty steel frame, AVR alternator systems, and many more features.

It is imported from Japan and is designed for the hire, industrial, agricultural, building, construction, council, and mining industrials, and is ideal as a portable power source, emergency standby-by system, mobile emergency service, and factory & plant maintenance.

AVR systems come standard to help prevent fluctuating power and create stable voltage for use when power is required for more sensitive equipment.
