2.9kVA Pramac Portable Generator

The Pramac E3200 2.9kVA generator is a simple, professional generator. Pramac has designed this generator for high performance at an attractive price. It's powerful, strong, and easy to maintain.

Run with a Honda GX160 engine, this generator is capable of 2.9kVA standby power and 2.5kVA prime power, making it great for on the job site, around the home, or on the back of a vehicle.

Every generator that leaves Macfarlane Generators is given the Macfarlane quality treatment. We pre-deliver every set (including oil, run check, and more) and we make sure your generator is ready to go from the moment you get it. We're believers of quality products that you can see, touch, and test before buying.
