

1kVA Yamaha EF1000iS

The Yamaha EF1000iS meets the strong demand from the market for a light, portable generator, which offers long continuous running capability and supplies high quality energy required to power electronic products with built-in micro-computers such as laptops.

The EF1000iS weighs just 12.7kg and is equipped with a new 4-stroke OHV 50cc engine. The Yamaha exclusive double coil system gives better fuel economy, a continuous running time of 12 hours, and less noise. Designed to supply commercial-equivalent power, the EF1000iS is compact and combines a convenient carry handle making it extremely portable. Noise block, acoustically designed sound reduction system, helps to make the EF1000iS the quietest portable generator in its class.
