

2kVA Yamaha EF2000iSC with Camouflage Design

The Yamaha EF2000iSC is **quiet, small, and light**, making it easy on your ears, easy to pack, and easy to transport. This unit has all the great features that come with the EF2000iS, but in camouflage. Inverter technology allows the generator to power sensitive equipment such as laptops, phones, and tablets.

Weighing just 20kg, this mighty mouse has enough power to run a microwave oven, a camping fridge, a kettle, or even a television. It is fitted with a newly designed muffler and air filter to achieve super quiet performance. Its advanced noise block sound reduction system means you can have a conversation without raising your voice.

At Macfarlane Generators, we ensure every generator is ready to go as soon as it's in your hands. You won't need to add oil and you won't have any trouble getting going because we deal with that hassle for you!

Every generator that leaves our store is ready for immediate use.
