## 5kVA Kipor Inverter Generator KDE6700TA

The Kipor 5kVA portable generator is all you need when the power goes out at home. It's quiet and efficient, providing smooth power that won't overload or cause damage. This generator will run for 6.5 hours at its rated output on a single 15L tank of fuel, perfect for during a blackout. The generator can be connected directly to your home to be switched on automatically in a blackout - hassle free!

The KDE6700TA Kipor Portable Diesel Genset is ideal for backup power and small workshop applications requiring 240V single phase AC power. The highly effective combustion system and large silencer contained by a double-wall structure and liner results in low operation noise. A central digital control panel displays real-time working data and highlights any potential issues. The Automatic Voltage Regulator (AVR) smooths power output and provides protection against overload and damage.

This generator also features advanced alternator winding, minimising waveform distortion and ensuring the output is stable, protecting the generator from short circuiting.

### FEATURES

- Efficient single cylinder diesel engine
- Powerful 12V DC charger - 8.3 amps
- Automatic transfer switch socket
- Dual 240V AC x 15A outlets
- Ideal for backup power and small workshop applications
- 1 year manufacturers warranty

### Panel:

- Key switch
- Electronic LED display system showing:
  - Voltage
  - Run Time
  - Temperature
  - Low oil
  - Overload

# Specifications

Model	KDE6700TA
Power	Rated: 4.5kW Max: 5kW
Phase	Single
Fuel Type	Diesel
Starting System	Electric
Voltage	240V
Engine	KM186FAGET
Fuel tank	15L
Running Time (rated output)	6.5 hours
Noise level (dB @ 7m)	72dB
Weight (kg)	177kg
Dimensions (L x W x H)	915 x 547 x 742 mm
Manufacturer's Warranty	1 year Manufacturer's warranty
