

3.2 Subaru Inverter Generator RG3200IS

The 3.2kVA Subaru RGiS Silent Inverter Generator is designed to run sensitive equipment like computers and televisions.

These units were used during the Melbourne Commonwealth games to run metal detectors. They are an ideal power source for motor homes or just perfect for clean power for industry specific tasks.

The 3.2kVA Subaru RGiS Silent Inverter is powered by an 'EX' Extreme OHC engine with a 3 year warranty.

The double-wall acoustical housing-damping panels reduces both high frequency and low frequency noise. These sound attenuating materials are highly fire-resistant. A state of the art inverter combines load-sensing electronic throttle control with improved combustion and lubrication to significantly reduce fuel consumption, plus yield a quieter, softer tone on start up and shut down, as well as constant running.

Specifications

Model	RG3200iS
Power	3.2kVA
Phase	Single
Fuel Type	Petrol
Starting System	Electric and Recoil
Voltage	240V - 50Hz
Engine	Subaru 7.0hp EX21, Air-cooled, 4-strok, OHC Gasoline Engine
Fuel tank	14L
Running Time (rated output)	8.4 hours
Noise level (dB @ 7m)	58dB
Weight (kg)	59kg
Dimensions (L x W x H)	537 x 482 x 583 mm
Manufacturer's Warranty	2 years
Engine warranty	3 years
